Sugar helps you make personal, one-to-one connections with every customer. With Sugar, your entire organization can build better customer relationships that set you apart from your competitors, grow sales, improve satisfaction, and drive more effective marketing campaigns.

Sugar puts your individual needs first, unlike traditional CRM systems that focus on tracking and managing sales by using a “one size fits all” approach. Sugar UX’s contextual intelligence helps you discover new customer insights, collaborate more effectively, and make better, faster decisions.

YOUR BUSINESS. YOUR CRM.

Sugar Professional is designed for your growing business. SugarUX™ makes Sugar easy to learn, easy to use, and easy to manage. Sugar PurePrice™ ensures that you’ll know exactly what Sugar costs, with no hidden fees or surprise add-on charges.

We can host Sugar for you in the cloud, or you can install and manage it on your own servers. As your business grows, Sugar will grow along with you to ensure the longest service life and highest return on investment.
